

St. Demetrios Greek Orthodox Church Baltimore, Maryland

PROJECT PROFILE

The Orthodox Church in Baltimore needed a major expansion to its Parish to accommodate for its growing congregation. This project includes design of a complete renovation of the existing two-story Classroom/Social Hall building, including conversion of the first floor social hall to 6 classrooms. A one-story school office and school main entrance will be added to the building, as well as toilet rooms on both levels, lobby space, stairs, and an elevator. Adjoining this addition will be a new, single-story multipurpose building, with a high school sized gymnasium, full formal auditorium with a stage, dressing rooms, a commercial kitchen, as well as storage and work rooms. The last element of this project will include changes to the administrative wing of the Church building and addition of a Board Room.
